Yes, you still have access to the old system through the end of April. I have reset Kelly's old system password, so she should be able to get in.

Emily,

We have access to the old database through the month of April, correct? Please see the below email from Rachel House. What do you suggest?

Carrie

Subject: A2A discharges

I am trying to use the old system to discharge on the two clients that Cathy talked to you about that we would have to reenter into the new system. I tried to use my old user name and password and it will not take it. Can this be reset still so I can discharge those 2 said clients?
